THE SECRET'S IN THE SCIENCE<sup>®</sup>

# NATURAL BOVINE COLOSTRUM FOR CALVES

Colostrum is the most important factor contributing to the health of the new born calf.

A calf needs 10% of its own bodyweight in quality colostrum in the first six hours of life to thrive however in many cases, the quality or quantity of colostrum from the mother is not adequate and that's where Procol® can help.

## THE PROCOL® EASY FEED GUARANTEE!

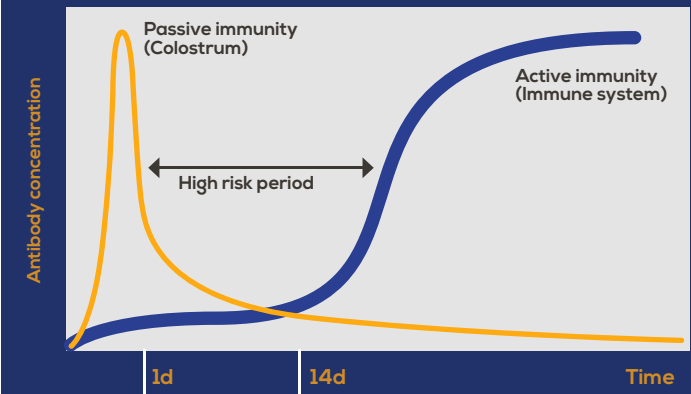

- Contains EU approved probiotic Enterococcus faecium
- Guaranteed Johnes Disease free
- Guaranteed EBL (Enzootic Bovine Leukosis) free
- Easy to mix and administer

## PASSIVE IMMUNITY AND ACTIVE IMMUNITY

Procol® Easy Feed is 100% natural pure bovine colostrum obtained from first milkings.

Colostrum provides immunoglobins (antibodies) necessary for the new born calf for passive immunity protection.

Good nutrition and controlled exposure to pathogens will allow the calf to develop their 'active immunity' as the passive immunity declines.

### USE ALONGSIDE...

#### SUSTAIN®

- Support for nutritional scours

#### SCOURGARD®

- Support for infectious scours

PROCOL® EASY FEED IS 100% NATURAL PURE BOVINE COLOSTRUM OBTAINED FROM FIRST MILKINGS

### ANTIBODY ABSORPTION V'S TIME
