# LACTAID®

- Rumen function enhancer for dairy cows and beef cattle to help stabilise the rumen pH and improve digestion.
- LACTAID® provides a prebiotic action to support microbial activity within the rumen, "feeding" the good microbes to increase numbers.
- "We previously had problems with cudballs and cow dungs were not consistent. Since using LACTAID® these is more consistency and we have a more content cow with less problems" stated Sean.
